

Catalogue 2022

Cinnetic is the perfect combination of technology and design. Our products have a fully functional and innovative character, offering intelligent solutions for today's angler.

These products are based on the latest engineering, developing sophisticated mechanisms that ensure efficient operation and exceptional performance.

Cinnetic maintains a sporty character with a great visual appeal, at a reasonable price within the high quality standards of Cinnetic brand.

RAYFORCE

The new RAYFORCE 5500X will be your best ally. The powerful gearing system in a compact size, is ideal for jigging, kayak and bottom fishing.

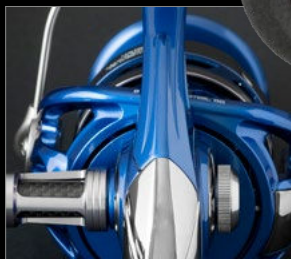

Powerful, smooth and progressive sealed brake system, 20kg drag power.

6,5mm stainless steel shaft in a tough aluminium body.

Machined stainless steel handle with an EVA combat knob.

Impressive fireproof carbon discs drive away the heat produced during combat.

Copper coated over size gears for a smoother and fatigue resistant use.

8+1 sealed S.S. bearings prevent dirt and salt crystals from entering.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210120	5500X	0,35/250 ALU	4,6:1	8+1 (SEALED)	20 Kg	625 g	0,90 M

RAYFORCE DEVIL

Same power, faster! Your most efficient weapon for offshore spinning & popping.
Also available in size 4500X for medium and heavy spinning.

Powerful, smooth and progressive sealed brake system, 22kg drag power. (Size 6500X)

6,5mm stainless steel shaft in a tough aluminium body. (Size 6500X)

Machined stainless steel handle with an EVA combat knob.

Impressive fireproof carbon discs drive away the heat produced during combat.

Copper coated over size gears for a smoother and fatigue resistant use.

8+1 sealed S.S. bearings prevent dirt and salt crystals from entering.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210101	4500X	0,35/185 ALU	5,7:1	8+1 SS (3 SEALED)	14 Kg	420 g	0,93 M
210102	6500X	0,40/270 ALU	5,7:1	8+1 (SEALED)	22 Kg	725 g	1,20 M

REXTAIL 9000 CRBK

A tough and powerful reel, outstanding from competitors by its enormous spool capacity 0.40mm/500m.

Big capacity double anodized aluminum drilled spool.

Rigid CRBK alloy body. 4,6:1 gear ratio

Machined aluminum handle with a big combat EVA HD knob.

Over size bale wire. Progressive drag up to 14kg.

Stainless steel main shaft and bearings. Ni Ti coated line roller.

Special gears for durability and fatigue resistance.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210150	9000	0,40/500 ALU	4,6:1	5+1 SS	14 Kg	745 g	1,13 M

CAYMAN BLACK III DS 7000 ALU

The tireless surf casting machine! Featuring the new tangle free system "HOLLOW ROTOR™" "CRB4™" that gives a super smooth retrieving quality.

**NEW
2022**

Quick release system.
Long run (35 mm)
anodized aluminum spool.

Ultra stiff aluminum body,
sealed by an O ring. Main
shaft made of 100%
stainless steel.

Machined aluminum handle
with no slippery knob. 100%
S.S bearings (4 of which
are sealed and strategically
positioned).

16kg smooth and progressive
multi disc system.

Aluminum body and side plate
with sealed engineering system
to prevent dirt and salt crystals
from getting inside.

Ni Ti coated line roller for extra
smoothness and durability.

RECORD SS 7000 CRBK

A machine to match the needs of the top surfcasting angler, with an extra smooth rotation system and an excellent engineering. **S.S (Shallow spool) version.**

Ultra flat machined aluminum spool, with quick exchange system.

CRBK alloy rigid body.
Aerospace grade aluminum main shaft.

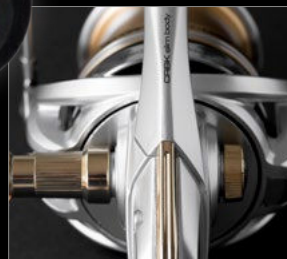

Machined aluminum handle with a round EVA HD knob.

Oversize steel bale wire.
Progressive drag up to 16kg power.

Ultra durable aerospace aluminum shaft weighting just 8g.

Sealed stainless Steel bearings to prevent salt and dirt from getting inside.

CARBONIKE SS / DS COMPETITION SPOOL

CARBONIKE SS COMPETITION spools have been developed to satisfy the needs of top surfcasting anglers. Very light and resistant to hits and scratches caused during transport or use.

Excellent capacity with thin lines for achieving long casting distances. Two options, standard or quick exchange can be chosen.

These spools are compatible with all the reels except Blue Win and Explorer.

CRBK SS / DS COMPETITION SPOOL QR

(Quick release system version)

Easy spooling micro hole

Metallic line clip

CRBK SS / DS COMPETITION SPOOL

(Standard version)

CRBK SS / DS COMPETITION SPOOL QR

(Quick release system version)

Fitting all mentioned reels with the exception of Cyclone 7000HSG and Cyclone Evolution HSG.

- **Material:** CARBONIKE (CRBK)
- **Quick spool release system.**
- **Line capacity:** 0.18mm/250M.
- **Metallic Line clip.**
- **Easy spooling:** Micro hole in the spool neck to hide the attaching knot thus easing casting action.

CRBK SS / DS COMPETITION SPOOL

(Standard version)

Fitting all mentioned reels.

- **Material:** CARBONIKE (CRBK)
- **Quick spool release system:** No.
- **Line capacity:** 0.18mm/250M.
- **Metallic Line clip.**
- **Easy spooling:** Micro hole in the spool neck to hide the attaching knot thus easing casting action.

Code	Model	Capacity (mm/M)	Weight
210064	CRBK SS COMPETITION SPOOL QR	0,18/250 CRBK	129 g
210065	CRBK SS COMPETITION SPOOL	0,18/250 CRBK	100 g
210125	CRBK DS COMPETITION SPOOL QR	0,25/300 CRBK	125 g
210126	CRBK DS COMPETITION SPOOL	0,25/300 CRBK	95 g

SKY LINE DS 7000 CRBK

Technologically advanced with superior range performance, adding smoother handling, durability and a nice feeling of control at all times.

Long run (35mm)
anodized aluminium spool.

Strong and rigid CRBK alloy
body sealed by an O ring.

Machined aluminium handle
with an EVA HD knob.

Titanium Nitride coated
line roller for durability and
smoothness.

Smooth and progressive
multi disc brake 16kg drag
power.

Innovative system that pre-
vents line from tangling on
the rotor shaft.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210144	7000	0,35/400 ALU	4,1:1	4+1 SS	16 Kg	625 g	0,90 M

REXTAIL DS 7000 CRBK

Dependable and tested mechanics, integrated in a CRBK alloy body.

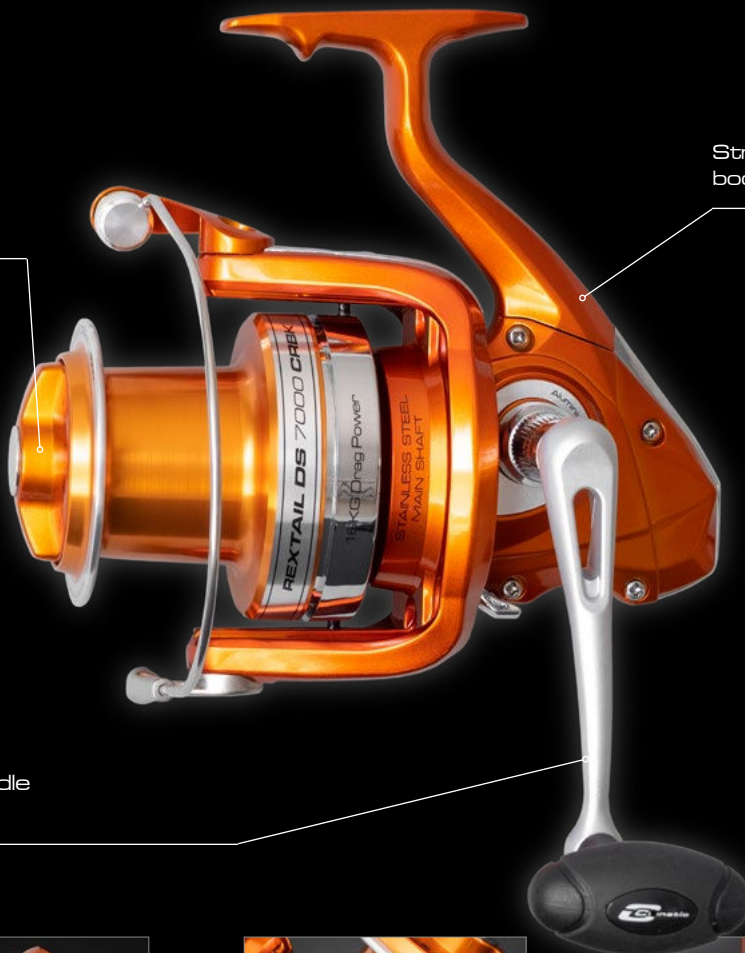

The new REXTAIL DS is a winner bet!

Long run (35mm)
anodized aluminium spool.

Strong and rigid CRBK alloy
body sealed by an O ring.

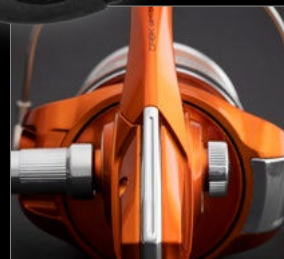

Machined aluminium handle
with an EVA HD knob.

Titanium Nitride coated
line roller for durability and
smoothness.

Smooth and progressive
multi disc brake 16kg drag
power.

Innovative system that pre-
vents line from tangling on
the rotor shaft.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210145	7000	0,35/400 ALU	4,1:1	4+1 SS	16 Kg	625 g	0,90 M

EXPLORER PURPLE 7000 CRBK

The reliable EXPLORER engineering, powered with top features.

NEW
2022

New brushed aluminum spool, with a progressive 16kg drag system.

Strong CRBK alloy body for increased stiffness during combat.

Strong injected aluminum handle with no slippery knob.

5+1 S.S. bearings for durability and smoother retrieval.

100% S.S. main shaft. Additional aluminum spool.

16Kg progressive and smooth multi disc drag system.

Code	Model	Capacity (mm/M) Main spool	Capacity (mm/M) Extra spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210155	7000	0,35/400 ALU	0,25/300 ALU	4,1:1	5+1 SS	16 Kg	620 g	0,90 M

EXPLORER 7000 CRBK

The known EXPLORER, has quality and features of higher level reels.
Now upgraded with a CRBK alloy body.

**NEW
RECYCLING**

New brushed aluminum spool, with a progressive 16kg drag system.

New body made of **CRBK** alloy that increases stiffness. Assuring a better performance during combat.

Strong injected aluminum handle with no slippery knob.

16Kg progressive and smooth multi disc drag system. New pinion made of copper and zinc alloy.

3+1 S.S. bearings for better durability and smoother retrieval.

Eje principal de aluminio 100% S.S. main shaft. Additional CRBK alloy spool.

Code	Model	Capacity (mm/M) Main spool	Capacity (mm/M) Extra spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210027	7000	0,35/400 CRBK	0,25/300 CRBK	4,6:1	3+1 SS	16 Kg	570 g	1,02 M

BLUE WIN DS Surf 7000 CRBK

Developed with a modern look after the known EXPLORER reel,
is the entry reel to CINNETIC quality.

NEW
CRBK body
construction!

Long run (35mm) CRBK
alloy spool.

Rigid and compact
CRBK graphite body.

New both sides handle made
of injected aluminium with anti
slippery knob.

Smooth and progressive multi
disc brake system 16kg drag
power.

Innovative system that pre-
vents line from tangling on
the rotor shaft.

Stainless steel bail wire, main
shaft and bearings.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210110	7000	0,35/400 CRBK	4,6:1	3+1 SS	16 Kg	595 g	1,02 M

EXPLORER *Great Coast* 7000 HSG

A classic concept with a modern design and reliable mechanics makes this reel a true affordable "All terrain".

CRBK alloy spool with a powerful and smooth multi disc brake.

Compact HS graphite body with "slim body" design.

Powerful metal handle with anti slippery knob.

Progressive frontal multi disc brake 14kg drag power.

Titanium Nitride coated line roller for increased softness when rewinding.

Precise and smooth oscillation system for an optimal winding.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210076	7000	0,35/450 CRBK	4,6:1	3+1SS	14 Kg	615 g	0,98 M

BIG XP 8000 CRBK

A tough reel for exigent fishing. If your target is big fish or difficult environment, BIG 8000 XP will help.

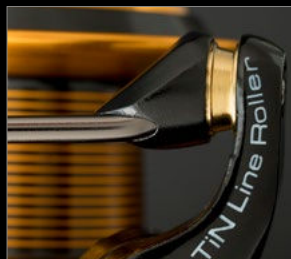

Big capacity double anodized aluminium vented spool.

Machined aluminium handle with a big EVA HD knob.

Tough CRBK alloy body with a powerful 3,6:1 ratio.

Stainless steel main shaft and bearings. Progressive powerful drag system up to 14kg.

Stainless steel bail wire and main shaft. TIN line roller.

Special gears for durability and fatigue increase.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210112	8000XP	0,40/400 ALU	3,6:1	5+1 SS	14 Kg	700 g	0,80 M

BIG 8000 CRBK

The 8000 CRBK version arrives to the BIG family, **with a 4,6:1 ratio, for those requesting a tough reel with an extra of speed also.**

Big capacity double anodized aluminum drilled spool.

Rigid CRBK alloy body. 4,6:1 gear ratio

Machined aluminum handle with a big combat EVA HD knob.

Over size bale wire. Progressive drag up to 14kg.

Stainless steel main shaft and bearings. Ni Ti coated line roller.

Special gears for durability and fatigue resistance.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210128	8000	0,40/400 ALU	4,6:1	5+1SS	14 Kg	700 g	1,02 M

ARMED CARP 7000 CRBK

Efficient gearing, smooth retrieval, and a mighty
16kg "RDS" drag system, with quick adjust.

NEW
2022

Brushed aluminum spool
with 16 kg quick adjust drag
system "RDS".

CRBK alloy tough body,
for increased stiffness
during fight.

Strong injected aluminum
handle with no slippery knob.

6+1 S.S. bearings for durabi-
lity and retrieval smoothness.

Oversize Ni Ti coated line roller:
Main shaft: 100% S.S.

Smooth oscillation system
with tangle free spider and in-
finity anti return system.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210164	7000	0,38/400 CRBK	4,1:1	6+1SS	16 Kg	605 g	0,9 M

ARMED CARP RUNNER 7000 CRBK

Stiffness, precision and a smooth oscillation system are, together with an automatic clutch and a beastly drag power, the best mates for carp Fishing.

Quick drag system
up to 16kg power

Rigid CRBK alloy body, which
keeps the gears perfectly
aligned during combat.

Machined aluminium handle
with an EVA HD knob.

Titanium Nitride coated
line roller for durability and
smoothness.

Smooth and progressive
multi disc brake 16kg drag
power.

Automatic drag system by
an on/off lever. Drag micro
adjusting wheel when in free
spool position.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210152	7000	0,38/400 ALU	4,1:1	6+1 SS	16 Kg	655 g	0,90 M

EXPLORER CARP 7000 CRBK

The known EXPLORER reel with "RDS" (Rapid Drag System)
and a performance and quality of a higher-level product.

Long run (35mm) CRBK alloy spool and "RDS" (Rapid Drag System).

Rigid and compact HS graphite body.

New both sides handle made of injected aluminium with anti slippery knob.

Smooth and progressive multi disc brake system 16kg drag power.

Innovative system that prevents line from tangling on the rotor shaft.

Main shaft and bearings made of 100% stainless steel.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210151	7000	0,38/400 CRBK	4,6:1	3+1 SS	16 Kg	583 g	1,02 M

EXPLORER CARP RUNNER 7000 CRBK

EXPLORER dependability, combined with an efficient automatic drag and a 16kg mighty drag power for the carp fishing addicts delight.

NEW
2022

Powerful and progressive
16Kg drag system.

Strong CRBK alloy body
with on/off automatic drag
selection lever:

Strong injected aluminum
handle with no slippery knob.

100% S.S. main shaft. Additional CRBK alloy spool. Oversize line roller hard chrome coated.

3+1 S.S. bearings for durability and smoother retrieval.

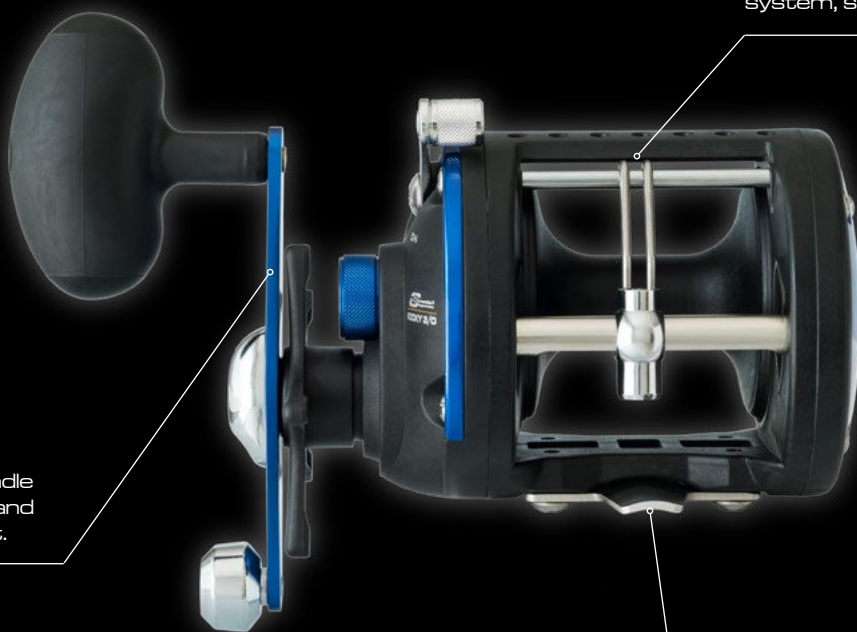

Smooth oscillation system. Rotor with a tangle free spider and infinite anti return system.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210163	7000	0,38/400 CRBK	4,6:1	3+1SS	16 Kg	640 g	1,02 M

ROCKY 3/0

A great reel for coastal trolling with the quality and details of CINNETIC.

Stainless steel level wind system, shaft and side plate.

Powerful aluminium handle with anti slippery knob and stainless steel reel foot.

One piece HS graphite body with stainless steel main shaft.

Smooth multi disc brake. 12kg drag power.

Sound alarm (rattle) selection lever.

2 Stainless steel sealed bearings assure a smooth and firm motion.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210111	3/0	0,40/380 CRBK	4,2:1	2 SS sealed	12 Kg	520 g	0,70 M

COMBAT 6/0 ALU

Ready for combat!

Powerful S.S pinion for a durable and reliable function.

Stiff machined aluminium frame, reinforced with S.S side plates.

Hard chrome coated metal handle with drilled aluminium combat knob.

size
4/0

with guide line

3 S.S sealed bearings for a smooth retrieve.

Powerful star drag up to 25kg.

Free spool lever and strike rattle.

Code	Model	Capacity (Lb/Yds) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210129	4/0	30 Lb/330 Yds	3,25:1	3 SS sealed	20 kg	660 g	0,65 M
210046	6/0	50 Lb/475 Yds	2,80:1	3 SS sealed	25 kg	1.175 g	0,77 M

CAUTIVA II **DEVIL** ALU

The tireless machine for medium and heavy spinning!
5.6:1 ratio version for a fast lure trolling.

Smooth but powerful 17kg powerful frontal brake.

Tough aluminium body with "slim body" design.

Machined Stainless steel handle with an EVA combat knob.

Nitride of Titanium coated guide roller and S.S. outer screws.

2 different capacity double anodized aluminium spools.

6+1 S.S. bearings, 3 of which are sealed.

Code	Model	Capacity (mm/M) Main spool	Capacity (mm/M) Extra spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210074	4500	0,30/220 ALU	0,30/125 ALU	5,6:1	6+1 SS (3 SEALED)	16 Kg	368 g	0,89 M
210075	5500	0,35/200 ALU	0,35/125 ALU	5,6:1	6+1 SS (3 SEALED)	17 Kg	442 g	0,95 M

CAUTIVA II XP ALU

The tireless machine for medium and heavy spinning!
4.9:1 ratio version for more traction power disciplines.

Strong anodized aluminium and "Braid ready" anti slippery band.

Tough aluminium body with "slim body" design.

Machined S.S. handle with an EVA combat knob.

Nitride of Titanium coated guide roller and S.S. outer screws.

Smooth but powerful 17kg powerful frontal brake.

6+1 S.S. bearings, 3 of which are sealed.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210089	4500XP	0,30/220 ALU	4,9:1	6+1 SS (3 SEALED)	16 Kg	382 g	0,78 M
210090	5500XP	0,35/200 ALU	4,9:1	6+1 SS (3 SEALED)	17 Kg	465 g	0,88 M

RAYCAST SP CRB4

Modern, light, energetic and with top features.
A reel to match the name RAYCAST.

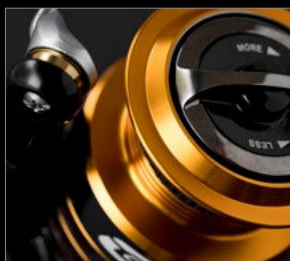

NEW
price with NO
spare spool

Double anodized
machined aluminum spool
with "braid ready" no
slippery band.

Ultra rigid and light **CRB4** alloy
body, capable to fight big fish.

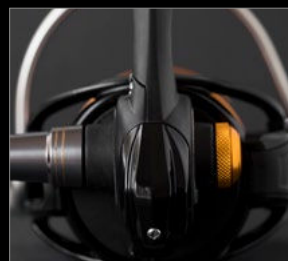

Machined aluminum handle
with EVA HD round knob.

Oversize bale wire. Progres-
sive drag up to 10kg power.

Stainless steel main shaft
and bearings. Ni Ti coated line
roller.

Sealed stainless steel bear-
ings to prevent salt and dirt
from getting inside.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210154	1500	0,20/150 ALU	5,6:1	8+1 SS (3 SEALED)	4 Kg	205 g	0,65 M
210130	2500	0,20/175 ALU	6,1:1	8+1 SS (3 SEALED)	6 Kg	240 g	0,82 M
210131	4000	0,30/150 ALU	6,1:1	8+1 SS (3 SEALED)	10 Kg	282 g	0,95 M

CRAFTY RED INFERNO CRBK

Brilliant upgrade of the known CRAFTY BLACK reel,
with ratios for specific techniques (Eging, Sea bass, Rock...)

NEW
price with NO
spare spool

Double anodized machined
aluminum spool with a
no slippery "braid ready"
band.

Rigid CRBK alloy rotor and body reduce
twist during combat.

4000 Speedster

2500 Eging

1500 Rock

Injected aluminum folding
handle. Ultra smooth
rotation system.

Oversize bale wire. Progres-
sive drag up to 10kg power:

6+1 stainless steel bearings.
The super smooth rotation
system optimizes winding.

Ni Ti coated line roller for a
smoother rotation and line du-
rability.

Code	Model	Capacity (mm/M) Main spool	Capacity (mm/M) Extra spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210132	1500 Rock	0,20/90 ALU	0,20/150 ALU	5,6:1	6+1 SS	4Kg	220 g	0,65 M
210133	2500 Eging	0,20/175 ALU	-	5,1:1	6+1 SS	6Kg	260 g	0,70 M
210134	4000 Speedster	0,30/150 ALU	-	7,2:1	6+1 SS	10Kg	299 g	1,15 M

CRAFTY BLACK III CRBK

A great technological display and a battery of features are concentrated in the interior of the new CRAFTY BLACK III, made to enjoy spinning at the highest level.

**NEW
SIZE**

Forged aluminium spool with "Braid ready" anti slippery band.

Rigid CRBK alloy body with "slim body" design.

Both sides metal handle with an anti slippery knob.

NEW
BODY
SPECIFIC TO
SIZES 5500
AND 6000XP

Titanium Nitride guide roller for increased durability and softness.

Smooth but powerful 10kg powerful multi disc frontal brake.

Innovative smooth oscillation system for rewinding assistance.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210142	2500	0,20/220 ALU	6,1:1	6+1SS	6 Kg	260 g	0,80 M
210143	4000	0,30/150 ALU	6,1:1	6+1SS	10 Kg	300 g	0,95 M
210171	5500	0,35/200 ALU	5,7:1	6+1SS	12 Kg	445 g	0,97 M
210172	6000XP	0,35/300 ALU	4,1:1	6+1SS	12 Kg	460 g	0,78 M

ARMED CRBK

Ready for any target.
Ready for any situation.

NEW
2022

Double anodized forged aluminum spool with no slippery band "Braid ready".

CRBK alloy rigid body with "slim body" design.

Both sides metal handle with no slippery knob.

NiTi coated line roller for increased durability and smoothness.

10kg power smooth and precise frontal multi disc drag system.

6+1 bearings 100% S.S. for increased retrieving smoothness and durability.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210168	2500	0,20/175 ALU	6,1:1	6+1 SS	6Kg	260 g	0,80 M
210169	2500 XP	0,20/220 ALU	5,1:1	6+1 SS	6Kg	260 g	0,70 M
210170	4000	0,30/150 ALU	6,1:1	6+1 SS	10Kg	300 g	0,95 M

REXTAIL Light game CRBK

Not only a matter of look. A mix of excellent and smooth mechanics, with a ratio for light and medium spinning requiring an extra traction power.

Forged aluminium spool with "Braid ready" anti slippery band.

Rigid CRBK alloy body with "slim body" design.

Both sides metal handle with an anti slippery knob.

Innovative smooth oscillation system for rewinding assistance.

Smooth but powerful 10kg powerful multi disc frontal brake.

Titanium Nitride guide roller for increased durability and softness.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210148	2500	0,20/220 ALU	5,1:1	4+1 SS	6 Kg	260 g	0,70 M
210149	4000	0,30/150 ALU	5,1:1	4+1 SS	10 Kg	300 g	0,80 M

REXTAIL MH game HSG

A radical look, covering energetic mechanics and a powerful drag, capable to fight big predators in the modalities of medium & heavy spinning.

Forged aluminum spool, double anodized and with a "Braid ready" anti slippery band.

Strong HSG graphite body, ensuring the perfect gear fitting during fighting.

Both sides metal handle with an anti slippery knob.

12 kg power smooth and precise frontal multi disc drag system.

Ni Ti coated line roller to increase durability and smoothness.

Innovative ultra smooth oscillation system to assist rewinding.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210146	4500	0,30/220 ALLU	5,6:1	4+1 SS	10 Kg	325 g	0,90 M
210147	5500	0,35/200 ALLU	5,6:1	4+1 SS	12 Kg	390 g	1,00 M

EXPLORER II MH Game CRBK

**Strong body, with a powerful gearing system and a high performance level.
The perfect ally for the EXPLORER rods range.**

**NEW
2022**

**DRAG POWER
12 KG**

**12
KG**

Double anodized forged aluminum spool with "Braid ready" no slippery band.

Strong body made of CRBK graphite, that keeps the gears precisely aligned during combat.

Both sides metal handle with no slippery combat knob.

12Kg progressive and smooth multi disc front drag system.

One way clutch system. 100% aluminum big bail wire.

3+1 S.S. bearings for durability and smoother retrieval.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210161	4500	0,30/220 ALU	5,6:1	3+1SS	10 Kg	325 g	0,90 M
210162	5500	0,35/200 ALU	5,6:1	3+1SS	12 Kg	410 g	1,00 M

CRAFTY Evolution CRBK

Superb spinning first reel, with the components and features of a semiprofessional reel.

Double anodized aluminum spool. Oscillation system for a perfect line winding.

Rigid CRBK alloy rotor and body reduce twist during combat.

Injected aluminum folding handle. Ultra smooth rotation system.

3+1 stainless steel bearings. Ultra smooth rotation system.

Progressive multidisc frontal drag up to 10kg power.

Ni Ti coated line roller for a smoother rotation and line durability.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210135	1500	0,20/150 ALU	5,6:1	3+1 SS	4Kg	215 g	0,65 M
210136	2500	0,20/220 ALU	5,1:1	3+1 SS	6Kg	255 g	0,70 M
210137	4000	0,30/220 ALU	5,1:1	3+1 SS	10Kg	290 g	0,80 M

BLUE WIN Light game HSG

BLUE WIN Price with top performance!

The nice feeling of enjoying an economic reel with Cinnetic quality.

Rigid HSG alloy body with "slim body" design.

CRBK alloy spool with a geometry developed for an optimized winding.

Modern metal handle with anti slippery knob.

Smooth and precise frontal multi disc brake 10kg powerful.

Anti return system by an OWC one direction bearing

Stainless steel bail wire, main shaft and bearings.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210117	1500	0,20/150 CRBK	5,6:1	2+1SS	4 Kg	200 g	0,65 M
210118	2500	0,20/220 CRBK	5,1:1	2+1SS	6 Kg	240 g	0,70 M
210116	4000	0,30/200 CRBK	5,1:1	2+1 SS	10 Kg	265 g	0,80 M

BLUE WIN SPINN HSG

BLUE WIN Price for top performance!

CRBK alloy spool with a geometry developed for an optimized winding.

Rigid HSG alloy body with "slim body" design.

Modern metal handle with a non slippery knob.

Smooth and precise frontal multi disc brake, 12kg drag power

Anti reverse system by a one direction OWC bearing.

Stainless steel bail wire, main shaft and bearings.

Code	Model	Capacity (mm/M) Main spool	Gear ratio	Bearings	Drag power	Weight	R.P.T.
210113	4500	0,30/200 CRBK	4,9:1	2+1 SS	10 Kg	295 g	0.80 M
210114	5500	0,35/200 CRBK	4,9:1	2+1 SS	12 Kg	382 g	0.88 M

CRAFTY MINNOW 150F

Spinning Super slim Light game

8576 RAYCAST Titanium XBR Super slim

RAYCAST essence to the limit!

The latest technologic processes have made possible to develop a rod with a new **super slim** blank concept that gives a fast response to any demand of the angler. The modern blank is the result of an advanced carbonization process by which the carbon atoms are treated at temperatures superior to 2.000° Celsius degrees, so obtaining a **40ton** fiber capable of reaching a much reduced diameter and weight. The use of laminated **XBR** carbon reinforcement in the base, and **30ton** fibers in the top of the blank result in a higher degree of resistance and durability. The **"K"** titanium series guides with **TORZITE** inside give a super light product with an amazing level of quality and performance.

EXPLORER I MH
Game SERIES
4500 / 5500

8500 EXPLORER Sea bass *Evolution*

Now available! The update of the known **EXPLORER Sea bass** model, with the usual energy and a new look. As could be expected, the solvent and proved blank has not been altered. A new set of "K" type guides with gun smoke frame shows the main visual difference with the previous model. The reel seat is still the mythic **Fuji DPS**.

Offshore spinning & popping

8441 RAYFORCE K12 XBR Tuna popping

Shake tuna, shake!... The name of the new **RAYFORCE K12** says it all. During the "lift up" tests, the rod reached easily 12Kg. The light and slim blank was developed for obtaining a balance between the two key points of popping fishing, casting and combat. The first centimeters of the tip are softer and elastic to help casting and move even small lures, but as we follow down, the blank stiffens firmly, giving a big power reserve.

Equipped with **Fuji "KW"** guides with Alconite interior, S.S. "Dark frosted Gray" frames and a reel seat **Fuji DPSM BC**.

Boat anchored & drifting

8402 EXPLORER Boat drifting

Made of 24Ton "HRC" radial carbon, this rod is designed for boat drifting fishing. The blank is slim and light. Three different lengths and actions are available; to match varying conditions, depth, boat...All they have an excellent diameter/power ratio. The top section is hybrid, made of a tubular base and two solid carbon ultra sensitive tips that can be conveniently exchanged. A compact rod, light and easy to use. Fuji reel seat and MNAG guides are the best guarantee against salt and corrosion. In any case, a thorough rinse and drying are a must after every fishing session.

Code	Length	Closed Length	Action	Sec.	Weight	Butt Diam.
8402	210	109 cm	max. 125 g	2+2	179 g	10,75 mm

8415 CROSS POWER Boat

This rod is designed for drift and anchored boat fishing. Made of 24ton "XBR" wrap carbon. Powerful and fatigue resistant. The action, up to 400g depending of the model, is ideal for fighting fish in high depths. The ratio weight-power-balance is well obtained. Featuring quality details, such as a metal gimbal bottom and two solid tips of different actions. Delivered with a fabric bag and neoprene holders for sections fastening during transport.

8588 CRAFTY *Evolution* Bass game

As the name shows, this rod is an evolution of the model launched on 2016, that was a success among both expert and beginner bass anglers.

Apart from its great look, it is remarkable for the fast and dependable carbon **24T** blanks combined with last generation resins. Its quality matches that of superior level products. Equipped with reel seat **Fuji ACS or VSS** (depending on version), for better grip and durability. Including an Oxford fabric sheath with Velcro closing.

Code	Length	Closed Length	Action	Line	Action Type	Sec.	Weight

Catfish (Silure)

8595 REXTAIL Catfish float tube casting trigger

Exclusive model for catfish float tube or boat Fishing. The blank is made of an only piece of carbon **24Ton** and last generation resins with **XBR** reinforcement that increases fatigue resistance. This version, with a trigger reel seat, is designed for multiplier reels. Equipped with "Gun smoke" steel frame guides and a double thread reel seat for increased security during combat.

8595	190XH	190 cm	Up to 180 g	REFG-FAST	1	225 g

8575 REXTAIL Catfish float tube

Rod exclusively designed for spinning after catfish from the tube or boat. The blank is made in one piece of **24Ton** carbon and last generation resins with a **XBR** reinforcement to increase power and fatigue resistance. The EVA non slip handle is specifically made for this type of fishing and has a grip over the reel seat for better handling during combat. It is mounted with "K" type guides with gun smoke frame and double thread reel seat for more security during combat.

REXTAIL MH Game 5500 CRBK

8591 REXTAIL BIG CATFISH Pellet XXH

Exclusive rod for big catfish angling with pellets or bait from the bank. The super reinforced blank, is made of **24Ton** carbon, last generation resins and **XBR** wrap to increase power and fatigue resistance. This means longer durability, since the blank is kept in better condition long term. The handle is made of **EVA HD with combat grip** for a better comfort. The upper section of it has **non slip** grip that helps dismounting it when wet. It is mounted with **reinforced guides** with black steel frame and **DPS-H type reinforced reel seat** for better security and control during combat.

Match - Pulse

8800 CRAFTY Magic Touch

Made of 24Tons "HRC" carbon, this rod offers a perfect balance with a feeling of control and sensitivity. It is designed for trout fishing with live bait. The blank, firm enough, gives lightness and precision with the sensitivity needed for this kind of fishing. The cork handle and the sliding reel seat offer many setting options. Because of its characteristics it can be also used for Match fishing. Available in 3,90M and 4,50M.

Recom. Reel

ARMED
2500 CRBK

8801 CRAFTY Match

This rod is designed for Match fishing. The blank is made of radial 24Tons "HRC" carbon. The 390 size, with a light action, can be used both with quite light floats and with inverted floats, a must in many scenarios. This light action follows the casting avoiding tangles and achieving long distances. The 420 size, a bit more powerful, can be used with heavier floats, inverted or not, keeping lightness and swiftness. Its length makes it more suitable for longer distance fishing, and its speed gives good quality hooking. The handle is made of a combination of EVA foam and cork, and is equipped with a Fuji "DPS" reel seat that guarantees years of a correct attachment of the reel.

Code	Length	Closed Length	Action	Recom. max. lure	Sec.	Weight
8801	390	135 cm	5-15 g	15 g	3	229 g
8801	420	144 cm	5-20 g	20 g	3	240 g

RAYBRAID

ULTRA STRONG & SMOOTH

GREEN TRACER

The new super line RAYBRAID 8 belongs to the last generation braided lines with construction HMPE (High Molecular Polyethylene).

The complex and slow manufacture allows to braid a round and thin profile with an excellent diameter/power/durability ratio.

The casting and winding ability is highly satisfactory, offering a smooth touch with a nice feeling of control. The line has a green colors pattern changing every 10m, like shown in the following diagram.

Apart from being very useful when spinning or jigging, it makes more visible the track during casting, anyway keeping a low profile tone.

- 8 threads PE line
- Compact and round section
- Extremely strong and resistant
- Smooth touch and easy handling
- High performance during casting and rewinding
- Excellent ratio diameter/power
- It doesn't get wet
- Long lasting colors

COMMITTED WITH THE ENVIRONMENT

PLA Recyclable spool. Made of natural products by a polymerization process free of fossil components such as petrol. Package made of biodegradable cardboard.

DIRECT TAPER LINE (LINE + CONICAL LEADER)

SKY LEADER

HIGH QUALITY PROFESSIONAL LINE + LEADER
LÍNEA DE ALTA CALIDAD + PUENTE DE LÍNEA

The conical line SKY LEADER is born as a result of the union between the line SKY LINE and the high performance CINNETIC tapered leaders. This is a practical and necessary product in many environments, as for instance sea weedy and sediment polluted waters, or just for the ease of use that gives this line. The absence of knot helps the line passing through the guides when casting and recovering. It also reduces the time spent on spooling our reels when renewing lines.

FLUOROCARBON LEADER

MIMETIC FLUOROCARBON

MATERIAL FROM JAPAN

**VIRTUALLY
INVISIBLE**

There are different grade fluorocarbon lines in the market, some of which shouldn't even be called fluorocarbon. these being simple polymers just coated with a finish to make them good sellers, but poor performers.

Nevertheless, the main feature of a FLUOROCARBON line is to have a refraction index similar to that of the water, making it virtually invisible, "mimetic" in that environment. objects absorb sun light and refract it at different angles, being seen of several colours. this phenomenon can easily be seen in a rainbow, when the

CINNETIC MIMETIC is a **100% fluorocarbon** line, and therefore virtually invisible.

sunlight is refracted off the water drops in all directions showing all the colours range.

MIMETIC spools are available in 50M length and gauges from 0,50mm to 0,90mm. and are also very abrasion resistant, which make them very interesting mainly in the bigger gauges with a breaking point from 40Lbs. to 80 lbs. the spools are very good looking and practical, as the line is always covered. winded in parallel system; avoiding this way memory effect and making easier to unwind it properly.

MIMETIC CLEAR 50 m

FLUOROCARBON LINE

MIMETIC FLUOROCARBON

MATERIAL FROM JAPAN

COMMITTED WITH THE ENVIRONMENT

PLA Recyclable spool. Made of natural products by a polymerization process free of fossil components such as petrol. Package made of biodegradable cardboard.

The high grade FLUOROCARBON is a monofilament with features such as a high specific weight which gives both a high abrasion resistance (as is the case of MIMETIC) and a fast sinking ability, due to its thick molecular building. The fluorocarbon MIMETIC line has a refraction index similar to the water. This feature makes it virtually invisible underwater and therefore not noticed by fish. Also its high molecular density makes it especially abrasion resistant and fast sinking.

**VIRTUALLY
INVISIBLE**

SURF CASTING TAPERED LEADERS

SURF TAPERED LEADERS

CINNETIC Surf taper lines are the answer to the modern competition angler's desire. The elongation level of line is very low. It allows transmitting the full casting power to the rod when casting. This feeling can be quite strong depending the rod action and power. For that reason we recommend to use finger protection when casting. Following the big success of cinnetic clear tapered lines, surfcasting enthusiasts can now enjoy the new deep red series, in 0,16mm, 0,18mm, and 0,20mm, adding also the 0,20mm to the clear lines series.

EXPLORER MINNOW Slim 140F

The slim profile and the weight transfer system are the key points for long casting. This combination of factors and its 18g weight make of the EXPLORER MINNOW 140F a bullet across the sky. In the water it moves wob'n roll fashion in a wide speed range, thoroughly sticking to the water:

- Made of Japanese ABS plastic.
- Weight transfer system for longer casting.
- Mounted with VMC 9626 3X N°4 PS treble hooks.
- Double varnish coat for longer lasting colors.
- Realistic colors and patterns with holographic scales.
- Attractive eyes and 3D gills.

EXPLORER MINNOW Slim 175F

The Slim shape and the weight transfer system by tungsten balls are the key features for long casting. This combination and the 28g of weight make of the EXPLORER MINNOW a bullet crossing the air. In the water the main feature is that it swims perfectly at any speed and keeps doing it until last moment even when fishing from a high position.

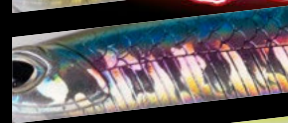

- Made of Japanese ABS plastic.
- Weight transfer system by **tungsten balls**.
- Equipped with **VMC 9626 3X N°4 PS** treble hooks.
- Double paint coating for pattern durability.
- Realist colors and patterns with holographic scales.

CRAFTY MINNOW 150F

Sharp head, big eyes and holographic scales give them a hydrodinamic and natural look. Great casting ability thanks to an internal weight transfer system. Remarkable wobbling and rolling swim action that keeps it underwater till last moment even at high speed.

- Made of Japanese ABS plastic.
- Magnetic weight transfer system.
- 1mm thick steel core.
- Mounted with **VMC 9626 3X** №4 PS or TR hooks.
- PS (Permasteel) or TR (Tin Red) hook colours depending on model.
- Double varnish coating for long lasting colours.
- Realistic colours and patterns with holographic scales.
- Available in 10 attractive colours.

CRAFTY MINNOW 110F

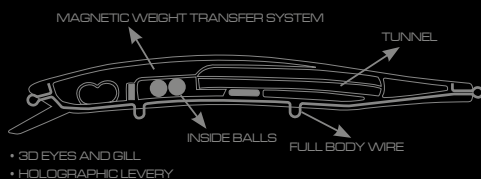

iJerk jerk....Boooooom! The Sharp head, big eyes and holographic scales, give it a natural hydrodynamic look. Thanks to its slim profile and mass transfer system, weighing only 12g, can reach amazing distances, being a nice prey for those predators not daring with a bigger size lure. The action, with a marked wob'n roll motion, proofs solvent whatever the retrieving speed.

- Made of Japanese ABS plastic.
- Mass transfer system for longer casting.
- Equipped with **VMC 9626 3X** N°6 PS treble hooks.
- Double varnish coating for color durability.
- Realistic colors and holographic scale patterns.
- Attractive 3D eyes and gills.

BAY BANDIT 135F

An all terrain minnow ready for endurance!

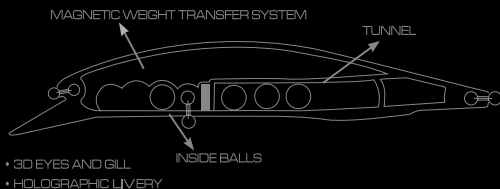

The flat colour pattern and the shape of the sinker make it especially suitable for choppy waters where a bit deeper swimming lure is more effective. Performing well even at slow speed, taking advantage of the night activity of some predators.

- Made of Japanese ABS plastic.
- Magnetic ballast transfer system.
- Equipped with treble hooks **VMC 9626 3X N°4 PS**
- Double varnish coating for colour durability.
- Realistic colours and patterns with holographic scales.

DARE MINNOW 105S

The minnow suitable for any big fish! Small but solid and compact lure, 30 g heavy, that can be successfully handled in choppy or deep waters, where a lure with a good ratio between weight and size is essential. These features also allow it to be long distance casted. It performs a light wobbling and rolling action combined with slalom motion which is stressed whenever speed is increased.

- Made of Japanese ABS plastic with inside ballast.
- Equipped with VMC **8527 4X PS/TR** N°4 treble hooks.
- PS (PermaSteel) or TR (Tin Red) hooks, depending on lure colour.
- Double varnish coat for durability.
- Realistic colours and coatings with holographic scales.

RUNAWAY 120S Jig minnow

Handle it as you want and it will respond crazily! The new RUNAWAY is a slim minnow 37g heavy, with an inside ballast designed for casting from piers and over frenzy areas. Efficient fishing during drop or recovery. It can be casted long distance and handled as wished. Armed with VMC 7266 TI number 2/0 hooks and tough stainless steel rings.

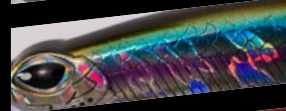

- Made of Japanese ABS plastic with lead interior.
- Interior steel wire from top to bottom.
- Extra strong 5,5mm steel rings.
- Equipped with **VMC 7266 TI** N°2/0 single hooks.
- Double varnish coat for durability.
- Realistic colours and coatings with holographic scales.

SKY RIDER 150F

This floating lure is a real missile. Big part of its 43g of weight is placed on the rear side, thus can be powerfully casted behind the surf line where jacks, bluefish and other predators are patrolling. This lure can be used by popping from boats and piers or at great speed surfing on the water and jerking it "skipping and shaking" way.

- Made of Japanese ABS plastic.
- Magnetic weight transfer system.
- 1mm thick steel core.
- Mounted with powerful **VMC 8527 4X N° 1/0** hooks.
- PS (Permasteel) or TR (Tin Red) hook colours depending on model.
- Capable of incredible distance casting.
- Double varnish coating for long lasting colours.
- Realistic colours and patterns with holographic scales.

MAGNUM SILKY SLIDER 130F

Powerful MAGNUM version of the dynamic and versatile SILKY SLIDER.

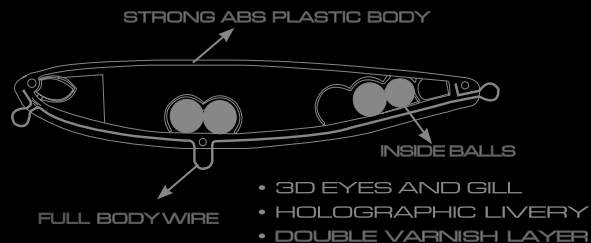

It swims "Dog walking" style together with a light side move that can be stressed at will depending on the pace we move it. Especially designed for salt water big predators like blue fin tuna, jackfish, and blue fish among others... Easy to cast, easy to use and very versatile in diverse situations.

- Made of Japanese ABS plastic.
- Mounted with **VMC 8527 4X** N°1/O PS treble hooks.
- Double varnish coat for longer lasting colors.
- Realistic colors and patterns with holographic scales.
- Attractive colors with 3D blood injected eyes.
- **New MAGIC DELTA color, ideal for murky waters.**

TORNADO 105F

A compact and aggressive popper that is easily casted and flies consistently. It moves a big amount of water with each jerk. It can be moved by jerking or by longer pulls, which generate a visible wake due to the splash and stream effect produced.

- Made of Japanese ABS plastic.
- Equipped with **VMC 8527 4X N°1 PS** treble hooks.
- Inner 1,2mm steel wire reinforcement.
- Double paint coating for pattern durability.
- Realist colors and patterns with holographic scales.
- **New MAGIC DELTA color, ideal for murky waters.**

MINI TORNADO 70F

This small and aggressive popper, like its big brother, is easily casted and is firmly shot despite its small size. It is capable of dragging a great amount of water in each occasion. It can be moved by jerks or by longer retrievals, forming a visible wake due to the splash effect and the stream generated.

- Made of Japanese ABS plastic.
- Mounted with **VMC 9626 3X** N°8 PS treble hooks.
- Double varnish coat for longer lasting colors.
- Realistic colors and patterns with holographic scales.
- Attractive eyes and 3D gills.

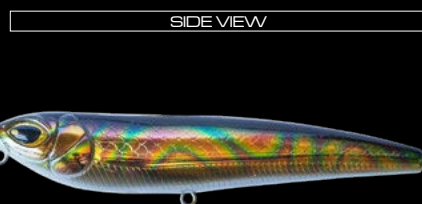

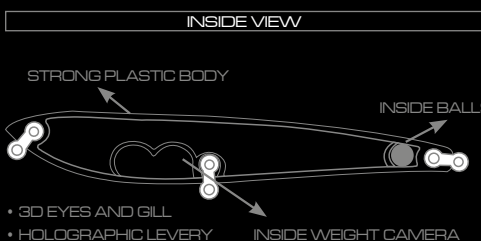

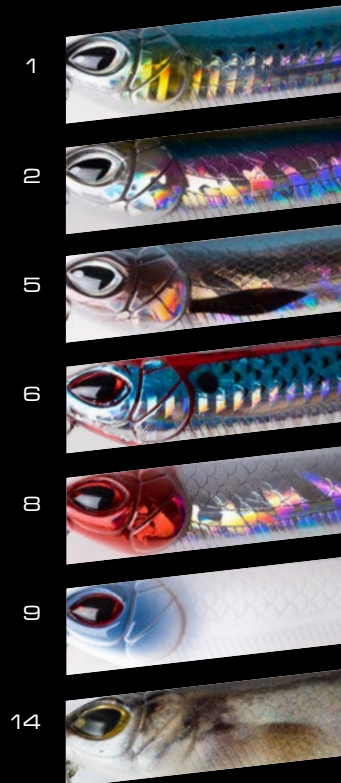

Code	Size (mm)	Colour	Weight	Type	Action	Depth range	Hooks VMC	Hook colour	Pack

ZIG WALKER 105F

A real “walking the dog” style example. An easy casting lure and extremely easy to use. It Can be helped with some popping pulses though. A very live and constant swimming creates a conspicuous zig-zag wake behind. Mounted with the sharp hooks “VMC 7547 Ti spark point”, with pointed inwards points to avoid the damage treble hooks cause on the lure’s surface.

- Made of Japanese ABS plastic.
- Mounted with **VMC 7547 TI** Spark point N°2 hooks.
- Easy use and casting.
- Double varnish coating for long lasting colours.
- Realistic colours and patterns with holographic scales.
- Available in 8 attractive colours.

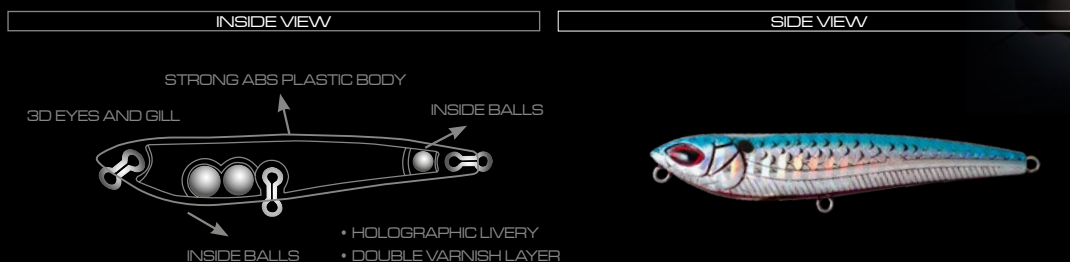

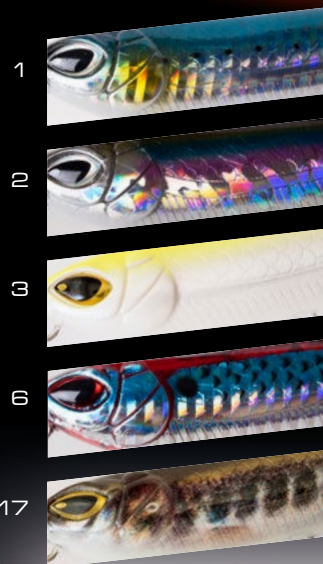

Code	Size (mm)	Colour	Weight	Type	Action	Depth (cm)	Hooks VMC	Hook colour	Pack

MINI ZIG WALKER 75F

This small Walker, as its big brother "ZIG WALKER", swims with determination cutting the water surface with a marked "Z" path. It is very easy to use, and the target is fish living in estuaries, lagoons or shallow waters where other fish live together with current predators waiting for smaller prey to approach.

- Made of Japanese ABS plastic.
- Equipped with **VMC 9626 3X** N°8 PS treble hooks.
- Double paint coating for pattern durability.
- Realist colors and patterns with holographic scales.

BABY BOOM! 50S

Tinny jerkbait only 50mm long and 4g weight, which surprises by its frenetic wobbling motion. Despite the small size, with the right equipment, it is easily casted and is capable of swimming under the breakers foam, where small and medium size predators patrol under shelter. A must have for light game fans.

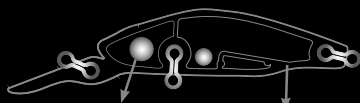

- Made of Japanese ABS plastic.
- Mass transfer system for longer casting.
- Equipped with **VMC 9650 1X** N°8 PS treble hooks.
- Double varnish coating for color durability.
- Realistic colors and holographic scale patterns.
- Attractive and big "Bloody eyes" and 3D gills.

PUPPY 45F

Cinnetic's mini Popper could be your best ally! Weighing only 4,5g, it is as discreet as effective. The small **Puppy 45F** is capable of making the difference during calm periods, when other lures fail by excess, or when fish feed in a selective way. It also is easy to cast and use.

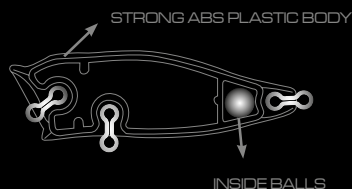

- Made of Japanese ABS plastic.
- Mass transfer system for longer casting.
- Equipped with **VMC 9650 1X** N° 12 PS treble hooks.
- Double varnish coating for color durability.
- Realistic colors and holographic scale patterns.
- Attractive and big "Bloody eyes" and 3D gills.
- New "MAGIC DELTA" color, ideal for unclear waters.

DEEP TRACKER 105F Trolling minnow

Trrrrrr.....Boom! This is the way you will feel the catches with the new Deep tracker! A lure specifically designed for trolling, attractive, well dimensioned, and easy to handle. It performs an electric and lively swim that will provoke a lot of aggressive bites. Recommended trolling speed from 1,5 to 6 knots, although higher speeds are possible. Swimming depth ranges from 4 to 5 m.

- Made of Japanese ABS plastic.
- Equipped with **VMC 8527 PS/TR** N°4 treble hooks.
- PS (Permasteel) or TR (Tin Red) hooks, depending on lure colour.
- Super resistant 5,0mm steel rings.
- Double varnish coat for durability.
- Realistic colours and coatings with holographic scales.

KRAKEN 110F Squid minnow

The surface minnow for trolling squid fishing! It performs an extremely natural action, like a wavy swim. The wavy movement alerts and attracts efficiently squid from all sizes. An enjoyable and successful technique. Specific coatings for this lure.

- Made of Japanese ABS plastic.
- Equipped with a double 20mm hook crown.
- Double varnish coat for durability.
- Realistic colours and coatings with holographic scales.

Specially designed for squid fishing on surface in both slow trolling and spinning techniques.

Soft hybrid baits

Crafty candy

Crafty Candy belongs to the hybrid soft lures family, since it combines a metal jig head with a vinyl tail. The very soft body texture is extremely reactive to any movement in the water, realistically imitating a fish alive. To change the tails it is necessary to use the cement provided or a similar one. Equipped with high quality VMC hooks. To change them is very easy. Just introduce the hole of the hook ring in the steel connection of the jig head, pulling backwards lightly till a "click" is heard. You could say CRAFTY CANDY is the heir of the mythic CRAFTY MINNOW in "soft bait" version, since the shape of the sharp head, body and scales are based on it. It is available in diverse and attractive colors combining different color patterns, including golden shines and flashy colors.

- Exclusive and realistic heads with attractive 3D eyes.
- Injected blood patterns imitating a wounded fish ("Bloody" colors).
- Body laminated in different color coatings and with Golden shines.
- Flashy colors "glow" effect, ideal for the dark hours.
- Mounted with **VMC 7317/7310** hooks depending on model and size.

Soft spare tails

Crafty candy **SPARE TAILS**

The spare tails for CRAFTY CANDY lures are developed by means of an special injection process, alike the original ones, so that a super smooth texture is achieved.

The pack is composed of 3 tails, including a 3g tube of special cement for gluing it to the body. Before the union degrease the back part of the head, where the union clip is, and the flat part of the tail, at the union point. Next, damp both sides with the cement or other similar, and press lightly so the connection clip passes through the vinyl tail. Wait 30 seconds aprox. and check the right union. To tie the hook to the jig head, just introduce the hole of the hook ring in the steel connection of the jig head, pulling backwards lightly till a "click" is heard. Each time a tail change is needed, use the same procedure. Then, the lure will be ready for fishing.

Tail sizes: 50mm / 70mm / 90mm / 110mm / 125mm / 140mm

Squid jig lures

NEW
2022

SQUID JIG Tiger Glow

The morphologic characteristics and the quality of its components have been studied to the minimum detail to obtain an attractive lure, durable and efficient. The very sharp hooks act like magnets. Attention when handling them or you will get harmed!

- Slim way body "Slim body" design covered with cloth fabric.
- Slim head with flat design and attractive 3D eyes.
- Big 3D eyes with luminescent profile.
- Extra Sharp hooks, which increase clearly the ratio of effective catches.

The wide pattern range gives different color effects, meant for attracting squid depending on water conditions.

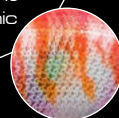

High attractive slim body

3D big eye

Ultra Sharp top
quality umbrella hook

Rainbow flash

The color pattern show flashes of different holographic tones.

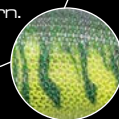

Glow in the dark

Charged with light and is glowing in the dark.

Super shiny

The "special coating" process multiplies the maximum glare of the pattern.

Fishing pliers & lip grips

310000 ALUMINIUM PRO PLIER 190mm

Made of aluminium alloy heat-treated to precise tolerances.

Replaceable jaws are made of SUS420J2 Stainless steel and tempered for a longer life.

The jaws includes split rings opener and crimping function.

Replaceable tungsten carbide cutters with a hardness of 70+HRC. Easily cut braid line and mono.

Anodized for better balance of hardness and color.

310001 MINI ALUMINIUM PRO PLIER 140mm

Made of aluminium alloy heat-treated to precise tolerances.

Replaceable jaws are made of SUS420J2 Stainless steel and tempered for a longer life.

The jaws includes split rings opener which perfectly fits with #3.5 split rings. Include crimping function.

Replaceable tungsten carbide cutters with a hardness of 70+HRC. Easily cut braid line and mono.

Anodized for better balance of hardness and color.

310002 ALUMINIUM PRO "STRAIGHT JAW" PLIER 170mm

CNC machined aluminium construction to precise tolerances and durability.

Stainless steel long straight jaws ideal for safe hook removal.

Tungsten carbide cutters with a hardness of 70+HRC, perfect for cutting braid line.

Spring loaded to better comfort and control.

Anodized for better balance of hardness and color.

*Served with sheath and extended cord with carabiner for hanging.

Transport bag & holdalls

350053 BELLY ROD HOLDALL

Transport and protection case specially designed for rods with a mounted reel thanks to its peculiar protruding shape. It is made of Oxford 420D and 600D fabric and good quality zippers with customized rubber handles. The case is built over a rigid plastic frame which gives protection and keeps moisture away.

350011 DOUBLE ADVANCE

New surfcasting rods transport bag. Designed for competition as for leisure. Inspired on the "Advance" bag, but thanks to its double frontal pocket gives a huge storage capacity in a safer and tidier way. As former models, it is made of 420D and 600D Oxford fabric and equipped with customized rubber knob high quality zippers.

Front view of the double zipper ample departments

Transport bag & holdalls

350007 SINGLE SURF

After the successful Professional and Advanced bags, we developed this new basic and functional model designed to protect and carry a couple of surfcasting rods. Ideal for weekend anglers or when we want to carry a light equipment. It is made of 420 DENIER FABRIC, and it is delivered with a soft divider to separate the two rods during transport. It closes by a zip, and offers the same quality as its predecessors.

350020 / 350021 MESH ROD BAG

Individual padded nylon mesh case for protecting our surfcasting rods from scratches and humidity. Inside there are three dividers to prevent rod sections from hitting each other. Fast closing by a Velcro strip. Available in size 150 cm for 420 cm rods and 160cm for 450cm rods (indicated in the case braid).

Frontal view of the Velcros closing and the three pockets.

Fishing bags

350050 SPINNING PRO BAG

Practical and smart bag made of Oxford 600D fabric with plastic boxes included and a number of gadgets for hanging all the needed items such as scissors, pliers, line clippers, bottles or even a spare rod or landing net. The compact design is ideal to carry just what is really needed and walk long distance with comfort. Comprising a main zipped central pocket and 3 additional ones including the following plastic boxes: 350045, 350046 and 350033.

350054 FISHING RUCKSACK

If you like adventure and your Fishing trips include walking to your Fishing spot, grab what you need and organize it in the different pockets and boxes of the new "Fishing Rucksack". Now you will walk safer and more comfortable. Your equipment will travel with you protected and organized, ready to be used at any time. It includes 2 plastic boxes with detachable dividers, to be adapted to accessories, hooks, or lures. The padded straps are comfortable and hold well. The zipper handles are made of rubber to prevent corrosion.

Code	Model	Material	Measures (cm)	Pack

350054	Fishing rucksack	Oxford 600D	26 x 45 x 22	1

Fishing bags

350014 REINFORCED BASE BAG

Transport and storing side bag with a rigid base, suitable for standing on damp areas. The padded and rigid structure protects our tackle. Sturdy and roomy, with two side pockets and a big front chamber. Rubber handles and a shoulder strap.

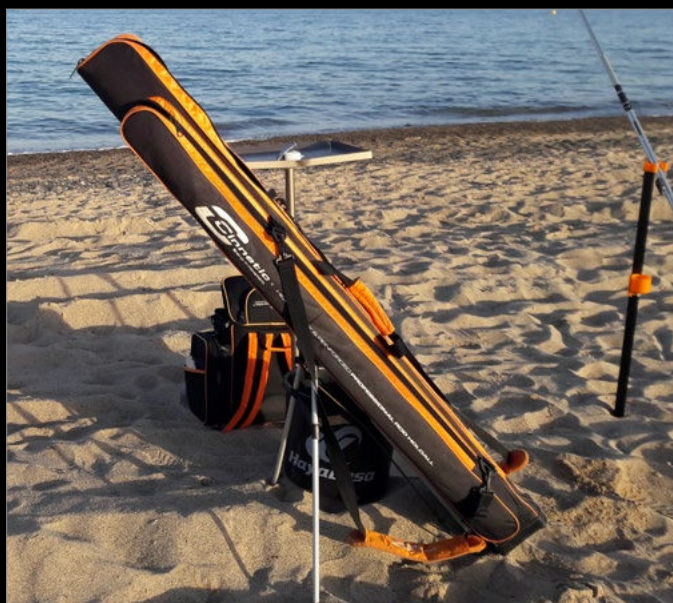

350009 MULTIPURPOSE LIGHT

Practical multipurpose bag for carrying all kind of fishing stuff. It has a big main compartment with 6 velcro dividers, perfect for reel storage. The dividers are removable, leaving room for lure boxes, or just for use as a medium size bag in the sea or lakes. It comes with a handle and shoulder strap for transport.

350016 SPINNING CLASSIC BAG

Made of tough polymer scratch proof fabric. A big main compartment, washable and removable by a Velcro attachment plus a front secondary pocket and two quick opening frontal ones.

Code	Model	Colour	Material	Measures (cm)	Pack
350014	Reinforced Base Bag	Orange/Black	Oxford 420D/600D	45 x 28 x 26	1

350016	Spinning Classic Bag	Orange/Black	Oxford 420D/600D	30 x 28 x 15	1

Fishing bags

350004 PROFESSIONAL HIGH END

This backpack is designed for surfcasting competition, but can be used for any kind of fishing where a big storage bag is needed. The top side has a special half moon zipper pocket to keep documents, mobile phone, keys, etc. Under the top compartment we can find another big frontal space, closed by a zip storing 3 plastic tackle boxes for hooks, swivels, etc. and a cool bag that can be used as such or as another storing pocket. In the inside of the cover there is another zipped pocket. In the outer frontal side, where the logo is, there is another zipped compartment ideal for keeping line and other flat items. To the sides, there are two large lateral zipped pockets, to store the "Cinnetic spool box", a semi rigid pocket to keep 6 Cayman/Cyclone size spools.

350017 COMPACT HIGH END

Based on the successful "Professional High end" bag. Slightly smaller; shows a compact and slim look. It includes three plastic boxes with removable dividers, and a spool pocket.

Code	Model	Colour	Material	Measures (cm)	Pack
350004	Professional High End	Orange/Black	1680 Denier Cloth	40 x 55 x 22	1
350017	Compact High End	Orange/Black	Oxford 420D/600D	35 x 44 x 21	1

Fishing bags

350077 MOCHILA PROFESSIONAL HIGH END / **Green Armed**

This backpack is designed for surfcasting competition, but can be used for any kind of fishing where a big storage bag is needed. The top side has a special half moon zipper pocket to keep documents, mobile phone, keys, etc. Under the top compartment we can find another big frontal space, closed by a zip storing 3 plastic tackle boxes for hooks, swivels, etc. and a cool bag that can be used as such or as another storing pocket. In the inside of the cover there is another zipped pocket. In the outer frontal side, where the logo is, there is another zipped compartment ideal for keeping line and other flat items. To the sides, there are two large lateral zipped pockets, to store the "Cinnetic spool box", a semi rigid pocket to keep 6 Cayman/Cyclone size spools.

350076 MOCHILA COMPACT HIGH END / **Green Armed**

Based on the successful "Professional High End" bag. Slightly smaller, shows a compact and slim look. It includes three plastic boxes with removable dividers, and a spool pocket.

Code	Model	Colour	Material	Measures (cm)	Pack
350077	Professional High End	Green armed/Black	1680 Denier Cloth	40 x 55 x 22	1
350076	Compact High End	Green armed/Black	Oxford 420D/600D	35 x 44 x 21	1

Fishing bags

350061 CROSS BAG PRO

Very equipped cross bag with foam semi rigid lids. After opening a section stays flat at 90° like a table, allowing handling inside comfortably. It includes 2 plastic boxes 350029, X long minnow box.

Easily hangs by a wide and comfortable cross strap with pockets and gadgets for hanging Tackle and tools. Rubber zipper handles to prevent corrosion.

A bag for pro anglers!

350055 ROCK FISHING BAG

If all your rockfishing equipment has "rock" dimensions, Why not having a bag adapted to the volume of the lures and accessories that you really need? Don't imagine it, we have developed it for you.

Compact size, light, comfortable and with all you need, including a side device to keep your rod when you need to change spot.

It is held by a cross strap with plastic fittings to prevent corrosion. It has several hangers for tools and tackle.

If you lie this bag, we suggest you have a look to the "rockfishing box" (350060) and "super slim box" (350058) soon in the 2021 catalogue.

Code	Model	Colour	Material	Measures (cm)	Pack
350061	Cross bag pro	Black/Orange	Oxford 610D/EVA	31 x 23 x 11	1
350055	Rock fishing bag	Black/Orange	HD Oxford 600D	17 x 30 x 11	1

Fishing bags

350057 EGING BAG

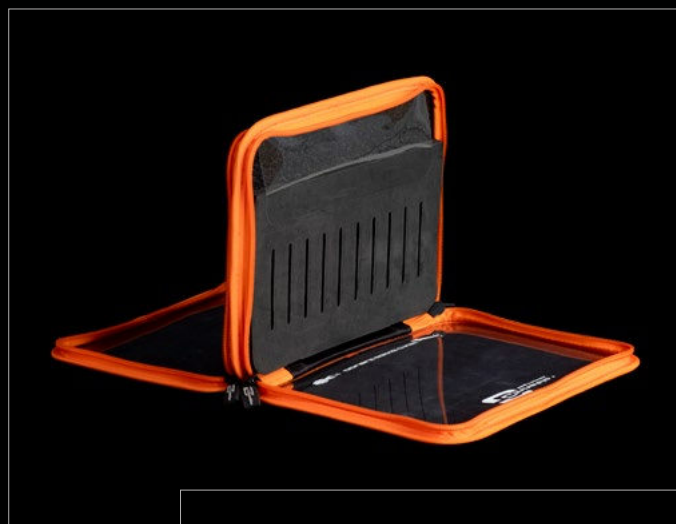

A technical bag with big storage. Designed for the most exigent egi anglers who need to keep lots of egi lures and tools in a well organized storage.

The pocket lids, made of foam, give a more durable and stiff structure. It includes "Double side egi box XL", with "Y" shape interior; ideal for keeping egi lures in an optimal way. The plastic strap attachments and the rubber zipper handles prevent corrosion.

350062 DOUBLE EGING CASE

A practical and functional double face case to keep our egi lures in an easy and efficient way. The lures are individually inserted in the foam base and the clear plastic flaps protect our fingers from the egi hooks. It is a very interesting item both for professional as for occasional squid anglers.

Code	Model	Colour	Material	Measures (cm)	Pack
350057	Eging bag	Black/Orange	Oxford 420D/EVA	37 x 21 x 16	1
350062	Double eging case	Black/Orange	PVC + EVA	25 x 20 x 45	1

Fishing bags

350037 SPINNING SPECIALIST BAG

Semi rigid rectangular bag of a contained but roomy size. Access by a double zipper. Made with two side pockets plus a big frontal pocket. Featuring rubber pullers, a suitcase type handle and a shoulder strap. It is very practical and comfortable to carry.

350040 WATERPROOF PRO BAG

Technical rigid bag designed for items we want to protect from water. It is featuring an outer zipper pocket and an open one to keep an oxygenator. On the cover there is a small hole to let the oxygenator tube pass, in case we want to use it as live bait well.

Code	Model	Colour	Material	Measures (cm)	Pack
350037	Specialist Bag	Black/Orange	Oxford 1680D	24 x 17 x 24	1
350040	Waterproof Pro Bag	Orange/Black	EVA Waterproof	40 x 26 x 28	1

Fishing bags

350069 EGING WAIST BAG

Practical and Smart bag made of waterproof fabric, with plastic boxes included and many gadgets for hanging all items needed for egi fishing, such as pliers, scissors, line cutters, water bottle or even a small landing net. The compact size is ideal for carrying just the basic and walk long distance comfortably.

Composed of a central zippered compartment with additional spaces including the following plastic bags:

350049 Double side egi box XL (main compartment)

350033 Double side mini box (frontal compartment)

350070 SHORE JIG PRO BAG

Practical and Smart bag made of waterproof fabric, with plastic boxes included and many gadgets for hanging all items needed for shore fishing, such as pliers, scissors, line cutters, etc. The compact size is ideal for carrying just the basic and walk long distance comfortably.

Composed of a central zippered compartment and 3 additional ones including the following plastic bags:

350059 Popping box (Main compartment)

350047 Vertical slim box (Frontal compartment)

350033 Double side mini box (Side compartment)

INDIVIDUAL REEL BOX

Reel box is a protective case for our reels. Padded and rigid. The square shape and compact size are meant to optimize the space in our bags or rucksacks, avoiding dead room. Depending on the reel model perhaps dismantling the handle will be needed for better fitting. Size "M" (18x16x10,5cm) For reels up to size 5500/6500. Size "L" (20x16x10,5cm) For reels up to size 7000.

Code	Model	Colour	Material	Measures (cm)	Pack
350018	M	Black/Orange	Oxford 600D	18 x 16 x 10,50	1
350019	L	Black/Orange	Oxford 600D	20 x 16 x 10,50	1

Complements

339996 REEL BAG CINNETIC

- Practical velvet cloth bag, string closing, very suitable for keeping dust, dampness and scratches off our reels. For all kind of reels.
- Measures: 25CM x 21,50CM.
- Delivered in 10 pcs. Packs.

339994 ELASTIC RUBBER BELT

- 20mm wide elastic silicone rubber band, very convenient for tight attachment of the line end to the spool. It has a double use, as it has a printed square to write down the gauge of the line in "Lbs" or "mm".
- A very useful feature when we have several spools.
- For spools over 21 cm perimeter.
- Available in 25 units pack with individual bag.

339993 ELASTIC VELCRO BELT

- Elastic 25mm wide belt with a velcro closing system, adaptable to most middle and big size spools. The belt is of good quality and has the full colour CINNETIC logo printed on.
- A very practical complement, easy to attach and remove any time.
- Available in pack of two units in an individual blister.

310007 LINE CLIPPER WITH HANG BELT

- Line cutting clip with a hanging lanyard.
- Stainless steel very sharp edge.
- The big handle allows easy operation even with gloves.
- Also equipped with an anti tangle needle and small knife.
- Including hanging lanyard with a very practical ruler printed on.
- Including an additional plastic connector for hanging scissors, pliers or any other fishing tool.

339994	Elastic Rubber Belt	20 cm	25
339993	Elastic Velcro Belt	25 mm	10
310007	Line Clipper	-	10

Accessories

310010 ROD CARRYALL STRAP

You would like to use your spinning rod and your rock fishing rod or just two rods of different actions during the same day? How many times you had the need to change for a heavier and bigger lure but couldn't because you didn't carry the right rod? Now, this simple but useful accessory allows you to carry, hanging at your back an additional rod to be used at any time.

It is light and comfortable, as it is a cross strap with plastic swivels connected to Velcro bands holding the sections at their ends. The Velcro bands adapt to the different thickness of the rod and have a slot to allow a guide getting inside should it be needed.

350072 COMBAT BELT

Comfortable and durable combat belt, with a high resistance belt and a quick fastener. An essential accessory to be at hand any moment. Easy to fix and affordable.

Code	Measures	Packaging
350072	35cm X 18cm / Ø40mm	1

310011 NEOPRENE ROD BAND

Comfortable and useful pack of two Velcro bands, ideal to hold some rods, i.e. during transport, preventing them from hitting each other. The Velcro bands adapt to the different thickness of the rod and have a slot to allow a guide getting inside should it be needed.

Code	Model	Packaging
310010	Rod carryall strap	6
310011	Neoprene rod band	10

Lure plastic boxes

350059 POPPING BOX

A great quality box that by dimensions is thought for keeping bigger lures in a tidy way, such as big poppers, walkers, or big stick baits among others. It is indispensable for our popping trips.

Code	Measures (cm)	Packaging
350059	21 x 14,5 x 4	10

350058 SUPER SLIM BOX

New box with super flat design specific for keeping lures organized. These flat boxes use very little space in the bag, which allows carrying several of them, mainly for those preferring to separate lures by categories or uses. It is designed for jerk baits, walkers, stick baits and soft baits, mainly of slim shape. Also due to the free space reduction they are kept free of tangles.

Code	Measures (cm)	Packaging
350058	20,5 x 14,5 x 2,5	10

DOUBLE SIDE EGI BOX

Practical plastic double sided box for Egi or artificial lures up to 140mm long. The "Y" shape interior keeps the lures in an optimal handling position and helps water drainage through internal holes.

Code	Size	Measures (cm)	Packaging
350031	M	20 x 16 x 4,5	10
350032	L	27 x 16 x 4,5	10
350049	XL	27,5 x 18,5 x 5	10

350033 DOUBLE SIDE MINI BOX

Small plastic double side plastic box divided in 10 departments for hooks, swivels or general tackle organizing.

Code	Measures (cm)	Packaging
350033	9,9 x 6,5 x 3	10

Lure plastic boxes

350047 VERTICAL SLIM BOX

Rectangular clear plastic box with vertical divisions and a moderate size, ideal for keeping hard and soft lures up to 100mm long, such as minnows, poppers, spoons or small jigs.

Code	Measures (cm)	Packaging
350047	23 x 12,5 x 3,5	10

350046 HORIZONTAL SLIM BOX

Rectangular clear plastic box with horizontal divisions and a moderate size, ideal for keeping lures up to 22cm long. Quick and easy opening system by a shaft. The interior is made with individual customizable divisions.

Code	Measures (cm)	Packaging
350046	23 x 12,5 x 3,5	10

350045 HORIZONTAL MULTI LURE BOX

Clear plastic box with long horizontal dividers and capacity for a variety of big lures. Quick and easy opening system by a shaft. The interior is made with individual customizable divisions.

Code	Measures (cm)	Packaging
350045	27 x 18 x 4,5	10

350060 ROCK FISHING BOX

As the name says, it is a small box of optimal dimensions for small and medium size lures for rock fishing, darting or any other technic in relation with spinning light game. It opens by both sides and has removable departments to be adapted to each need.

Code	Measures (cm)	Packaging
350060	12 x 9,5 x 3,3	10

Lure plastic boxes

New rigid waterproof boxes by an "O" ring for micro lure and accessories perfect protection. Ideal for keeping and carrying lures, hooks, soft lures or jigs of a small size in relation with light game, rock fishing or any other kind of sea or fresh water fishing requiring safe and protected storage in small departments. The inner departments are quick opening by a spring and can be partially organized as wished. The outside has anti slip bands for more security and protection of the box.

Surf casting sand spike

SURF CASTING SAND SPIKE

Surf casting sand spike. Made of "L" shape 35mm light and strong aluminium. The cup is made of reflective plastic and adjustable in height by an easy to operate brass screw. It also has a drain hole. It is advised to carry the spike upside down in the bag to prevent damage by its sharp point.

Code	Size	Colour	Weight	Pack
350034	120 cm	Magenta fluor	510 g	6
350035	120 cm	Orange fluor	510 g	6
350036	150 cm	Magenta fluor	630 g	6
350051	150 cm	Orange fluor	630 g	6
350065	150 cm	Orange copper	630 g	6
350064	150 cm	Trophy blue	630 g	6
350063	150 cm	Neo red	630 g	6
350075	150 cm	Green armed	630 g	6
350071	150 cm	Purple grape	630 g	6

FALL PROTECTION WIRE

It is an accessory to prevent falls, very easy to use and adapt to the "Surf casting sand spike". It can be used as replacement for the 150cm pikes and also as additional to the 120cm pikes, which don't carry it as standard.

Code	Packaging
350066	2

All sizes include a fall proof accessory.

Accessories

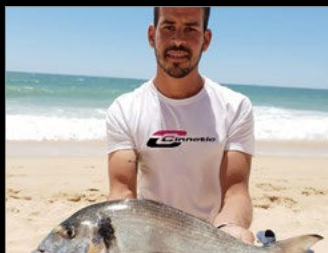

KNOT MACHINE

Effective and attractive knot making machine. Very useful when uniting fluorocarbon with braided lines for exigent fishing when fast knotting is welcome and safety is a must. Made with a stainless steel main body and an aluminum spool. Valid for both fresh and salt water and available in orange and magenta colors.

Code	Size	Colour	Packaging
310009	120 cm	Magenta	5
310008	120 cm	Orange	5
